Montana Trauma Registry Inclusion Criteria

* We did <u>NOT</u> change registry criteria. The criteria is the exact same, just in a different format
* Tried to simplify the form using a flow chart instead of the previously used columns
* We received objections that the old format was difficult to understand
* We were missing many patients that actually did meet criteria
* Both will be available for use and on the website

*Facility Resource Guide

* Guide will be available to assist with transfers, locums knowledge of facilities and capabilities
* Will include Facility/Staff Info, Patient Transport Info, Lab & Radiology Info.
* Also including Air Medical, Facility Designation List, and Summary of ECP Levels
* Print later this month and then will distribute

*New Re-Designed Website

* **Coming soon:** Link on EMSTS website to proposed legislation that may affect EMS/Trauma/Healthcare/Injury Prevention
* Some current Un-Introduced bills include:
    * Provide for primary seat belt law
    * Distracted driving
    * Air medical subscriptions
    * Sharing healthcare information with law enforcement
    * Interstate medical licensure compact
    * Benefits for emergency responders
    * Increase highway speed to 80 mph
    * Healthcare professional reporting requirements for gunshot/stab wounds
    * And more….

* Go Live expected January 1, 2015

* Recent training was held in November.

* Watch for upcoming dates to continue training, access to secure server

* This is <u>mandatory</u> training for paper abstract users

* Encourage logging into test-site for practice of entering charts

* Letter to facilities coming soon related State Web-based system is a secure site for patient records

*Web-based Collector Training

* "Rule XIV, Trauma Registries and Data Reporting (1) For the purpose of improving the quality of trauma care, all Montana health care facilities, as defined in 50-6-401, MCA, must participate in the state trauma register by collecting and reporting to the department the data within 60 days after the end of each quarter, each health care facility that provided service or care to trauma patients within Montana must submit to the department the information required and who meets the criteria for inclusion in the trauma register"

* Data Submission

* The software based users download to us at the State quarterly which gets uploaded into our central trauma data registry

* To be consistent we will want the Web-based Users to comply with the same requirement

* This will be posted on the website for reference

* Data Submission

Montana State Registry Dates of Data Submission Schedule

* Ensures consistency in abstraction and data entry for the registry
* Ensures accurate data used for education, research, policy compliance, injury prevention and trauma center verification
* Should be an integral part of the overall Performance Improvement Process
* "The goal is to turn data into information, and information into insight" – Carly Fiorina

* Data Validation

*Ensures that data collected falls within acceptable ranges and all data fields correlate chronologically

*Validation Check

* Before publishing or releasing data, validate
* Measure twice, cut once principle applies to data
* Inaccurate data reflects on you, your program and the facility
* Garbage In= Garbage Out
* Solid and valid data instills confidence in your abilities and promotes the program's integrity

* Continuous Validation

*We will run data validation for your facilities quarterly with downloads for software users and the Web-based users

*We started with downloads that were submitted last week

*State Data Validation
